Summary

Backend Developer with a strong foundation in Node.js and server-side application development. Skilled in building scalable RESTful APIs, implementing authentication systems (JWT), and managing databases like MongoDB. Experienced in developing dynamic web applications using EJS, handling CRUD operations, and integrating third-party services such as Cloudinary and email services.

Proficient in writing clean, efficient, and maintainable code with a focus on performance and security. Familiar with version control systems like Git and deployment platforms such as Render. Passionate about problem-solving, continuously learning advanced backend concepts, and building real-world projects that deliver reliable and user-focused solutions.

Projects

Inventory Management

https://github.com/BiswajitMakhal/Inventory-Management

A comprehensive full-stack application built with Node.js, Express, and MongoDB, featuring a server-side rendered UI using EJS. It bridges a B2C e-commerce frontend with a robust admin backend. Key features include role-based access control (RBAC), end-to-end user order flows (Cart to Checkout), automated dynamic stock calculations (Stock In via Purchase Orders & Stock Out via Sales), detailed stock tracking logs, and a dedicated payment module for tracking partial and pending dues.

Node.js, Express.js, MongoDB, JWT Auth, REST API, JavaScript

Dynamic Product Catalog & Admin Portal

A streamlined full-stack application built with Node.js, Express, and MongoDB, following the MVC architecture. Features a customer-facing storefront with dynamic search/filtering and an administrative dashboard for catalog management. Key technical implementations include automated SEO-friendly slug generation, robust server-side data validation using Joi, and efficient image file management (upload/replace/delete) using Multer. Engineered a soft-delete mechanism to ensure safe data preservation.

Technologies Used: Node.js, Express.js, Mongoose, JavaScript

VERO-SPACE

https://biswajitmakhal.github.io/VERO-SPACE/

Find your dream home with VeroSpace. Explore our wide range of residential, commercial, and luxury properties. Filter by price, rooms, and type to easily buy or rent houses, flats, and villas.
